

Summer is heating up and so is PAC 14. We are always looking for volunteers and friends who believe in the mission of public access to help us create more community programming. If you have ideas that you want to see on local television, come to our workshop on July 18 to get started. For more details and to sign up, go back to our homepage and click on “Becoming a Producer,” and then “Free Qualifying workshop.”

As you enjoy your summer activities, I hope you will consider added PAC 14 to that list. As a NPO (non-profit organization), we are dependent on the contributions of the community in which we serve. Think about what Public Access is worth to you as you go through the summer months. Visit our web-site “Home Page” and notice the **Donate Now** button on the top right. Try it out. It is very easy to do and I have proven that by starting off the donations, along with a friend of PAC 14 from Worcester County! I challenge you to make a difference. If you watch and learn from PAC 14, let us know it is important to you.

Want to see what your donation is for? Feel free to come by and visit us in the East Campus Complex just off Wayne and Power Sts. in Salisbury. As always, if you have any questions for us, contact us at our main number of 410-677-5014. You can also get our daily program schedule there by pressing option 1.

Enjoy the summer and stay tuned to PAC 14...Your Community Television Channel.
